

## **PRESS RELEASE: The Community Blood Center Live with LifeTec Elite / DoVac Elite**

*March 11, 2019*

IT Synergistics announces The Community Blood Center (CBC) in Appleton, Wisconsin has completed their conversion to LifeTec Elite / DoVac Elite. CBC has achieved a critical milestone with this “go live” event for their Biomedical Enterprise Computer System (BECS).

*“Our conversion to LifeTec Elite / DoVac Elite is the culmination of 13 months of detailed organizational planning,”* offered John Hagins, President and CEO of The Community Blood Center. *“We are pleased that our BECS conversion went so well with the assistance of the staff at IT Synergistics. This implementation sets the foundation for future enhancements which will benefit blood donors as well as our hospital partners.”*

*“We are very happy to have The Community Blood Center as a partner, and we welcome their contribution to our community of users,”* said Tim Bryant, Managing Director of IT Synergistics.

In addition to providing the BECS system used by CBC, IT Synergistics also serves as the hosting provider. For more information on LifeTec Elite / DoVac Elite or the hosting services, contact IT Synergistics.

*About The Community Blood Center* – Established in 1955, The Community Blood Center (CBC) is an independent non-profit organization that provides a safe and reliable blood supply to hospitals in Northeast Wisconsin, the Northwoods, and upper Michigan. CBC has multiple donor centers in Wisconsin (Appleton, Oshkosh, Little Chute, and Woodruff) and hosts over 100 blood drives each month. For more information, please visit [communityblood.org](http://communityblood.org) or call (800) 280-4102.

*About IT Synergistics* – IT Synergistics (ITSy) is a customer driven, 510 (k) approved blood establishment computer system (BECS) vendor. Based upon an ongoing review of member blood centers’ strategic plans and initiatives, ITSy’s customers identify, prioritize, and recommend strategic additions to ITSy’s overall portfolio. IT Synergistics is committed to meeting blood centers’ software needs.
