

NATIONAL | MERCON® V Multivehicle ATF

Product Description

NATIONAL MERCON® V is a high-performance automatic transmission fluid formally approved to meet the latest Ford viscometric limits, with increased shear stability and lower cold temperature viscosity.

NATIONAL MERCON® V licensable multi-vehicle technology is also suitable for use in other high viscosity applications like the ones required in pre 2006 GM/Ford, Chrysler and import heavy duty car and light truck transmissions.

Approvals and certifications

Ford MERCON® V License# M5210501

(It **cannot** be used in other Ford applications such as MERCON®, MERCON® SP, or Type F applications)

Features

- Outstanding low temperature performance and resistance against sludge and deposit formation
- Improved anti-wear protection which contributes to extended fluid life
- Formulated to meet the latest Ford viscometric limits, with increased shear stability and lower cold temperature viscosity

1. Mercon® is a registered trademark of Ford Motor, Co.
2. Consult your owner's manual regarding its suitability as ATF in imported vehicles. Do not use in ATF applications where CVT fluids are required. Do not use in Honda power steering fluid systems

The recommended shelf life for these oils is typically 48 months from manufacturing date when stored properly in the original sealed containers
