RENOVATION UPDATE

The Sanctuary Renovation Subcommittee continues its work toward recommending a scope of work for a potential sanctuary renovation project in 2027. In recent weeks, the Subcommittee has met with a contractor who specializes in church renovations and has engaged local architect Charles Olson to serve as a consultant. The group has also explored several options regarding the future of the organ and met with an organ builder to better understand the possibilities, costs, and considerations involved. In addition, a local audio/visual company has been asked to evaluate our current systems and recommend potential improvements as part of the renovation. There is still much work to be done before specific recommendations are presented to the Trustees and the congregation. As the Subcommittee continues this process, we ask for your prayers for wisdom, discernment, and faithful stewardship. We also encourage you to begin prayerfully considering how God may be calling you to financially support this important work in the life of our church.
